Future learning:

Begin to understand nouns in French and the gender of nouns.

By the end of this unit

All children can: Learn how to say basic greetings and how they are feeling in French.

Most children can: Recognise, recall and spell numbers 1-10 in French

Some children can: Recognise, recall and spell ten colours in French and say 'my favourite colour is...' in French.

Background understanding for teachers and parents:

This unit will be focused around the children recognising all the instruments and it will be one of the first formal language teaching units that they will encounter, helping to build their developmental and communicative skills alongside their linguistic progress.

Curriculum Driver (one):

Communication

Evidence outcome:

To explore songs and music with accompanying actions will introduce the children to the specific and very different sounds in spoken French, thus developing and boosting their phonemic awareness.
